Allowable Subject Matter

1. Claims 1-19, 22-26, and 29-88 allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the steps of or means for **"based on a cell number of said CBR class, a total conforming cell number of each class, and a total non-conforming cell number of each class, said connection request generation section generates a connection request to a switch scheduler"**, when such cell number is considered within the specific structure of the device recited in claims 1, 7, 24, 25, 47, 65, 83, and 86 or the method recited in claim 29. The prior art of record fails to teach or make obvious the steps of or means for **"connection request generation makes the connection request for said switch scheduler, responding to the cell number that said first counter and second counter measured"**, when such connection request is considered within the specific structure of the device recited in claim 22. The prior art of record fails to teach or make obvious the steps of or means for **"cell read-out controlling section makes bandwidth determination for both of said first class and said class, and responding to a result, reads out the cells from said first class when a connection permission is received"**, when such cell read-out section is considered within the specific structure of the device recited in claim 23. The prior art of record fails to teach or make obvious the steps of or means for **"based on a total number of the conforming cells of said CBR class and each of said class bandwidth management sections, and a total number of the non-**

conforming cells of each class, generating a connection request to a switch scheduler", when such cell number is considered within the specific structure of the device recited in claims 13, 26, 53, 59, 71, 77, 84, 85, 87, and 88 or the method recited in claims 35 and 41.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
